

Features

- ◆ Magnet-helix indicating mechanism ideal for low DP measurement
- ◆ surface mounting with 2-5/8"hole
- ◆ Accuracy 5% of FS
- ◆ Easy to read through lucid lens
- ◆ High static pressure to 30 PSI
- ◆ Good quality and low cost

Specifications

Service: Air and compatible gases
Ranges: See Range Selection Chart
Accuracy: ±5% of full span at 20°C±5°C
Ambient Temperature: -6.67 ~ 48.9°C
Pressure Limit: 30Psi (2.06Bar)
Process Connections: high and low pressure

taps – on the top.
Housing Material: nylon glass, polycarbonate lens
Weight: 220g
Dial Size: 52.39mm Diameter (2-1/16")
Mounting Position: Vertical
